While in season: asparagus, rhubarb, summer & winter squash, pumpkins, peppers, onions, beets, tomatoes, corn, melons, and more! Other produce, plus pick your own berries in season. Hay and straw, too!

We are not organic, but we do try to farm as naturally as possible. We do not spray any pesticides on the berry plants when they are fruiting. Of the two different fertilizers we use, one is certified organic, and the ingredients of the other, Growers Mineral Solution, are pure enough that you can drink it if you wish. Our children are our work crew, and we all eat as we pick. Please check our FaceBook page for berry and vegetable availability. Our road-side stand is out Monday through Saturday 10:30 am to 6:00 pm, so come drop by!
